Healing with Horses Foundation

Background

Healing with Horses was created in 2010 as a non-profit organization, realized from a dream by its Founder and Director, Mrs. Veronika Johanna Danzer-LaFortune. With one horse rescued from the rain forest and a heart filled with love and faith, Mrs. Danzer-LaFortune and her husband, Mr. Lennon LaFortune created a place where children of different backgrounds, nationalities and varied physical and mental abilities are engaged and enjoy therapy and creative engagement.

Our weekly sessions include therapeutic play in our Magical Playground, music, drumming, nature walks, gardening, art and craft, animal care in general and the exceptional experience of Being with Horses. Our healthy herd of eleven horses and one pony (most of them rescued or donated), gives everyone a way to experience a strong sense of bonding and affection, along with the physical benefits of strengthening their core muscles and improving balance through ENT (Equine Nature Therapy). Each child is offered the opportunity to ride, groom, and commune with these gentle animals.

The children are guided by teachers and volunteers and are encouraged to be creative and expressive, enjoying the outdoors, surrounded by nature and the sea. While enjoying these unique sessions, the children gain new insight, self-esteem, realize unknown talent and share this joy with their friends as they come together to discover the Love and Magic of Healing with Horses.

Mission Statement

“Creating an integrated, inspiring, and safe space in which specially-abled children, adults and animals are empowered to realize their full potential through therapeutic interactions with Nature.”

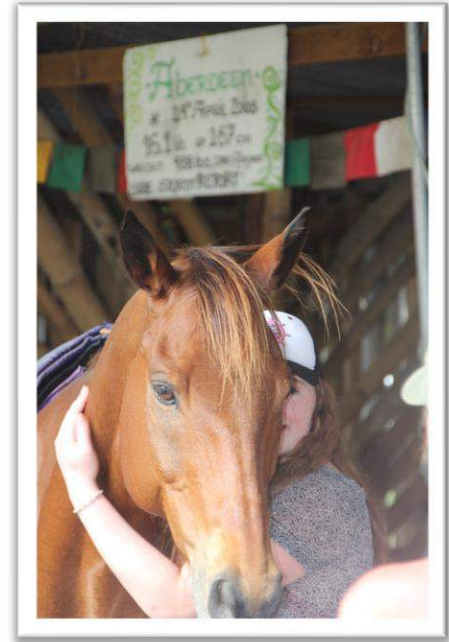

Vision Statement

“A Harmonious Wave of Healing for all”

PRINCIPLES OF BEING AND HEALING WITH HORSES

- 1) The equines live in an open stable with lots of paddock space where they can commune and socialize with the other herd members.
- 2) We look at Mother Nature for the best example. We encourage the natural way of living for the horses and ponies. They are surrounded by trees, a great view, and fresh breeze.
- 3) They have 24-hour access to fresh clean water, grass or hay, and their family members close by to play and interact freely.
- 4) Happy Horses have Happy Riders. Priority Number One is the balance and the wellbeing of the herd. We check their wellbeing, just like we take care of our own. They need to be comfortable and content.
- 5) Each equine is freely welcomed in our space. It is their choice to come out and meet their Human Team partner. We Humans are requesting permission from the Equines.
- 6) We honor and thank them each moment they choose to share their space with us.
- 7) The horses choose their right team partner. They feel our presence and look into our heart & soul.

- 8) Each individual four-legged friend is appreciated for who they are. Some of the horses are slower, some of them are spirited, some of them are leaders, and some of them are followers.
- 9) Each herd member has their own mind, therefore we learn how to read their body language and their different sound-expressions.
- 10) We encourage everyone to put themselves in the animal's place and treat them as you love to be treated.
- 11) We work bit-less and bridle-less (no metal bits in the horses' mouths).
- 12) "Horses do not Judge: They accept us as we are. They love unconditionally."
- 13) We keep in mind: God made horses and ponies to be just horses and ponies – not to be ridden. We are therefore tremendously grateful for every moment they are willing to work with us.
- 14) There is no need to control our team partner. They share their passion with us and truly enjoy what they are doing. A GENTLE HAND IS THE KEY. Open your palm and receive their love.
- 15) The Equines are our greatest Teachers. Horses carry the wisdom of Healing in their hearts and offer it to any human who possesses the humility to listen.

A special thanks to all our volunteers and supporters who we could not mention but could not do without during this year. Your generosity, hard work, special talents, caring natures, unwavering patience, kindness, respect, and most all your time and effort you put into this foundation is much appreciated. Though it has been a lot of work, your support and engagement made a difference to the foundation. We look forward continued support.

STUDENTS & PROGRAMS

Equine Nature Therapy (E.N.T.)

ENT sessions are held six days a week and are focused on supporting individuals diagnosed with Autism, Down's Syndrome, Cerebral Palsy, Visual/Hearing or Speech Impairment, ADHD, Emotional Trauma, Weak Motor Skills and Asperger's syndrome. These unique sessions allow the children to improve their physical strength and overall well-being through therapeutic interactions.

Riddim Therapy

Specially-abled adults are integrated with visitors and volunteers in a wonderful session, drumming, playing various instruments, and singing. These sessions stimulate the body, mind and soul through the power of music. Members of the Riddim Nation Collective support the sessions.

School Programs

Students and participants from various schools and organizations are guided by teachers and volunteers and encouraged to be creative and expressive. They also enjoy the outdoors, being surrounded by nature and the sea. The focus is "Being with Horses" as the children commune, groom, feed, and ride. Our Therapeutic Playground offers a variety of stations for swinging, climbing, seesawing, imagination, and creativity. They gain new insight, improving self-esteem and realizing unknown talents. These sessions may be combined with elements of ENT and Riddim Therapy.

Specially-Abled Adults Work Program

In accordance with the HWH's mission to integrate and empower, the Foundation has an ongoing initiative employing specially-abled adults to work at the HWH Park.

One of the Foundation's proudest successes has been the fulltime employment of HWH Park Attendant, Mr. Jayon Brathwaite, who was first sent to HWH as part of the Trinidad and Tobago the On-the-Job Training Programmed (OJT) in 2017. Mr. Brathwaite was one of the first specially-abled OJTs in Tobago. Jayon is always there with a smile. We are grateful for his positivity, endurance and readiness to fulfill his tasks at the Park.

ACTIVITIES THROUGHOUT THE YEAR

Like the rest of the world, this past year the Healing with Horses Foundation faced unprecedented circumstances. At the end of March 2020, Trinidad and Tobago went into lockdown. This meant that several of the annual events HWH hosts or supports were cancelled. This unfortunately included the first annual HWH Autism Awareness Charity Concert Fundraiser.

HWH has also had to adjust the daily operations because of the restrictions. We have had to move away from larger group and school sessions to smaller one-on-one sessions. We have also shifted more of our attention to our online platforms. For example, after the Charity Concert was cancelled, we launched an Autism Awareness campaign and video project through social media instead.

That is not to say there were no event highlights from this past year. In late 2019 and early 2020, we were honored to host various workshops at the HWH Park. This included a PUPPET PLAY Workshop conducted by the founder of Bright Antilles, Dr. Danielle Elliott, Ph.D.; UNDERSTANDING MEN... UNDERSTANDING WOMEN... UNDERSTANDING ME Workshop conducted by Leah Almeida; and a two-day PlayAble Certificate Workshop Program. HWH also hosted several beach clean ups on Buccoo Bay. In September 2020, approximately 100 trees, sponsored by the German Embassy, and brought to the Foundation by Environment Tobago, were planted around the HWH Park at Buccoo Point.

In June 2020, HWH was delighted to offer a special session to the frontline workers of Tobago in appreciation for their services. This offer entailed free horseback riding sessions on the beach. Over a hundred frontline workers participated over the course of the month.

Please refer to Addendum B for 'Calendar of Events 2019-2020' for more information.

FUNDRAISING THROUGHOUT YEAR

Healing with Horses procures donations from public and private sectors through active fundraising: sending out proposals and grant requests, holding community-based fundraisers, and selling merchandise and acquiring donations from tourists and friends of Healing with Horses. We are also active in the social and traditional media.

This year many proposals and letters were sent to various businesses and organisations to raise funds for the ongoing Equine Nature Therapy sessions and the maintenance of the HWH Park. We had many sponsors answer our call, for which we are eternally grateful. These sponsored ranged from local companies to several government ministries.

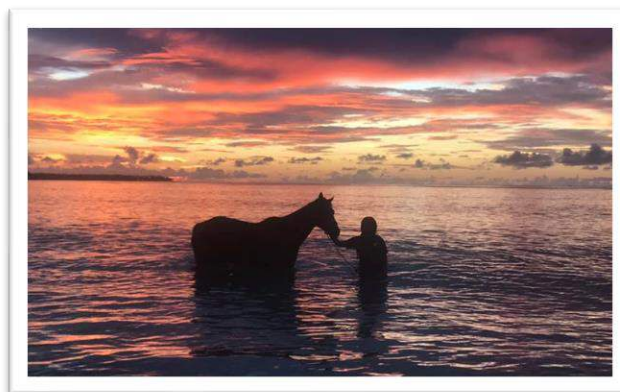

To raise funds, we also collected funds to produce the 2020 calendar. The theme was "**Freedom**". It featured the following businesses:

1. Southern Sales & Service Company Limited
2. PROMAN AG (Trinidad) Limited
3. Ins & Outs of Trinidad and Tobago
4. Phoenix Dental
5. Il Portico
6. Mickey's Bakery
7. The Hugli & Grossi Family
8. The Ramdwar Family
9. Retreats with Horses
10. Central Bank of Trinidad & Tobago
11. Trinidad Removers & Forwarders Limited
12. Scrip-J

Each sponsor contributed TT\$ 3,000.00. Two thousand calendars were printed. Some calendars were given to friends and supporters. The rest were sold in the Love and Magic Centre to raise funds for the Foundation.

Work for next year's calendar (2021) has begun. The proposed theme is "**A Harmonious Wave of Healing**".

ARTICLES

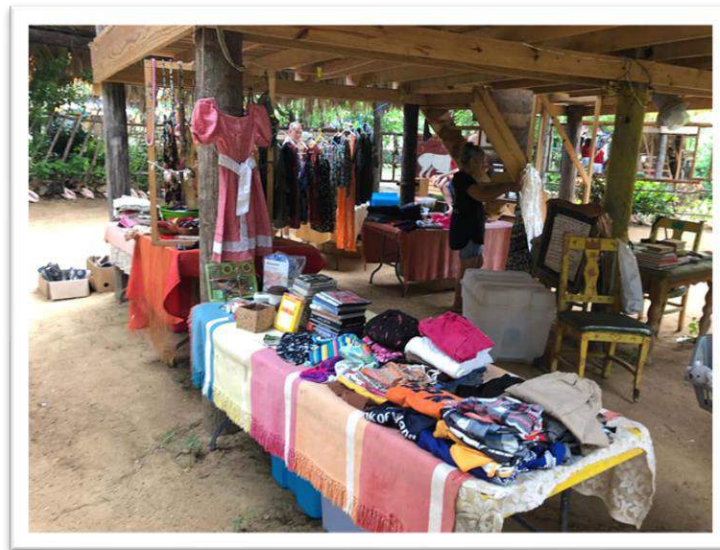

Trinidad & Tobago Newsday newspaper above and DONNA magazine (Germany) on the right.

This year the HWH Foundation was featured in various newspaper, magazine, and TV segments. We are grateful to all these publications and programs who were interested in learning about and promoting our activities. It has created local and international awareness for our foundation.

IN-KIND DONATIONS

Throughout the year people have brought items and other gifts for the horses, children, and the Foundation. These items include horse brushes, horseshoes, horse medicines, pet food, books, clothes, linens, and toys. Please see 'Addendum C' for a list of items donated.

CHALLENGES AND RISKS

Although equine therapy is not new to many countries in the world, on our tiny island in the West Indies most have never seen a horse nor had any exposure to being with these amazing animals as a therapeutic modality. Our programs have shown great success over the years. We are on the right track and have learned how to work with our community in presenting a program which at the start was difficult for many to accept. People were afraid, doubted our abilities and most certainly did not trust our gentle giants to be friendly. With time, patience, endless invites, visiting schools for the specially-abled, villagers seeing our horses walk through their village, swim in their bay and accept all who came to visit, we slowly gained the trust and confidence we needed to implement our programs.

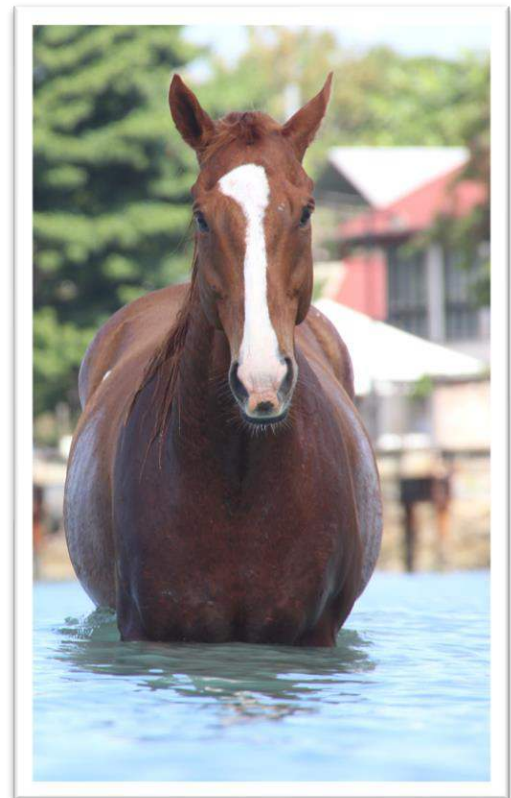

When we heard of a horse abandoned in a lone field we went, on foot, and walked endless miles to bring her to the stable as horse vans do not exist here. Undaunted by lack of feed we cut our own hay by hand, often traveling miles when dry season leaves us few options. We devise healthy blends of feed using coconut and molasses, gathering fruit and palm leaves assuring our herd has the best of care we can offer regardless of weather or lack of vehicles. Water is trucked in, buckets are carried where needed.

Most of our herd came to us malnourished, injured, abused, and neglected. Within weeks and without the aid of vets or "equine specialists" our treatment of daily sea baths, massages, clean feed from nature's bounty, and always in the company of each other, our lonely orphans blossom into vibrant, shining, muscled, calm, trusting members of a happy herd.

Operating from a premise that if our horses, in spite of their backgrounds, health issues and prior conditions, are well nourished physically and emotionally, treated with respect and without the use of any forceful tactics either in manoeuvres or harsh equipment (bits, bridles, spurs, ill-fitting saddles, whips, martingales, etc) they will transfer their calm, trusting, gentle manners to our participants, visitors, and volunteers creating a new level of relationship.

Children and adults with Autism, Down's Syndrome, visual and hearing impairments, emotional trauma, grief, loss, Cerebral palsy, etc. have made remarkable improvement not only in their physical abilities but discovered a place where they can trust, bond develop self-confidence, fully accepted and loved by their four-legged friends.

The main strain on Healing with Horses financially is assuring sufficient care for the herd. Feed, medicine, equipment, shelter, hygiene, hoof care, arena footing, tools etc. If funding for their proper care is in place, we can then employ monies raised to expand our programs, upgrade our facilities both for the participants and our beloved herd. We are not presenting a dramatic change as we know our methods work. We want to

assure the care of our herd which is and always has been, our primary concern and the foundation from which we operate.

The HWH Foundation considers our projects low risk as we have always and will continue to proceed with utmost caution and care, taking on only what we know we are capable of in management of the herd, participants, park and volunteers. We strive to improve and implement new ideas as we grow and learn, we are detail oriented in every area of the organization. It is imperative that the care of our horses be of the utmost quality and focus applied at all times to ensure the well-being and safety of all. With proper maintenance of our horse park, safety equipment, arena, fencing, and experienced staff we can assure the best possible environment and the ability to open our programs to a larger portion of the population.

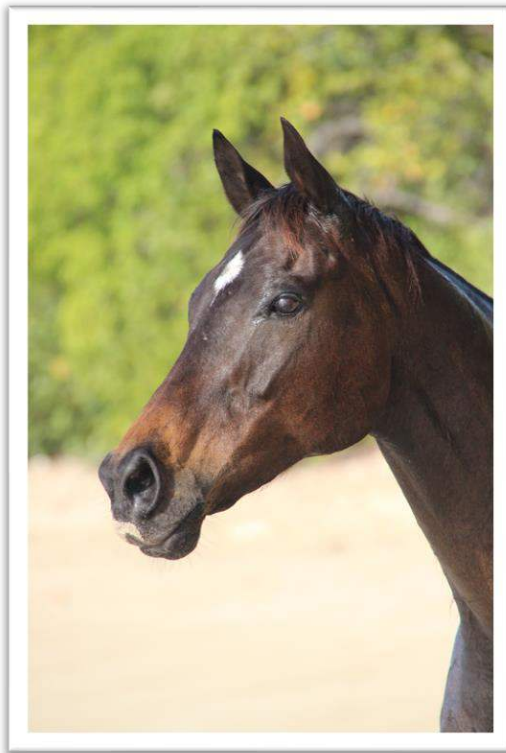

Our accounting is impeccably maintained with professional accountants and fully transparent, open to audit. All monies spent are carefully recorded, receipts filed and accessible. Access to the funds is secure.

HOW CAN YOU HELP?

As a Volunteer

If you are willing to spend some time working with horses and specially-abled participants, our E.N.T. and Afterschool sessions are for you! We can provide the necessary hands-on training you need to work with the horses and participants.

If you are a professional, especially in areas of therapy (e.g. ABA therapy, physiotherapy, speech therapy), horses (equinology, equine vet, trainer, fairer), fundraising, IT, event planning, video and photography we would much appreciate your skills.

If you do better in-doors, the office environment maybe for you. We'll train you in our daily operations such as answering the phone, scheduling sessions and selling memorabilia from the Love and Magic Centre.

As a Donor or Sponsor

We accept In-Kind donations and money to assist us in our programmes, daily activities, equipment and improving infrastructure. We can provide businesses and organisations with a receipt of the donation, pictures of beneficiaries and or improvements for their use.

Consider donating towards our GoFundMe campaign. See links in the Additional Information section below.

FUTURE PLANS

- ❖ Renovation of Healing with Horses Magical Park
- ❖ Recruiting new E.N.T trainees
- ❖ Partnering with the Magdalena Grand Beach & Golf Resort on a new initiative whereby a small group of HWH participants and equines are invited to a monthly group session on the hotel grounds.
- ❖ Recruiting a Library Administrator
- ❖ Collecting water bottles to be converted into artwork for the HWH Park
- ❖ Creating a cemetery location outside of the HWH Park
- ❖ Retreats with Horses
